

## WEEKLY DELIVERABLES

Prioritizing has been done based on customer's need and restrictions based on time, effort, and budget. Issues are going to be added at github weekly according to weekly deliverables which are listed below.

### WEEK 1 – Target: 12/04/2022

- Migrate database to Postgresql
  - **Prioritization: High**
  - **Status: Closed**
  - **Issue Link:** <https://github.com/koglak/SWE573/issues/10>
- Implement Authorization of website
  - **Prioritization: High**
  - **Status: Closed**
  - **Issue Link:** <https://github.com/koglak/SWE573/issues/11>
- Implement Question Page
  - **Prioritization: High**
  - **Status: Open**
  - **Issue Link:** <https://github.com/koglak/SWE573/issues/12>
  - **Issue Link:** <https://github.com/koglak/SWE573/issues/13>
- Implement Myspace Page
  - **Prioritization: High**
  - **Status: Open**
  - **Issue Link:** <https://github.com/koglak/SWE573/issues/14>
- Document your works & learnings

### WEEK 2 – Target: 19/04/2022

- Implement Course Page Functions –Lecture
  - **Prioritization: High**
- Implement Course Page Functions – Quiz
  - **Prioritization: High**
- Implement Course Page Functions – Case-study
  - **Prioritization: Medium**
- Document your works & learnings

### WEEK 3 – Target: 26/04/2022

- Implement Lecture Page
  - **Prioritization: High**
- Implement Home Page
  - **Prioritization: Medium**
- Implement Profile Page
  - **Prioritization: Medium**
- Document your works & learnings

#### WEEK 4 – Target: 03/05/2022

- Examine your progress - Reconsider timing plan / deliverables
  - **Prioritization: High**
- Implement Rooms Page
  - **Prioritization: Medium**
- Implement Activity Page
  - **Prioritization: Low**
- Document your works & learnings

#### WEEK 5 – Target:10/05/2022

- Learn Unit Testing
  - **Prioritization: High**
- Test application
  - **Prioritization: High**
- Learn Deployment- Docker
  - **Prioritization: High**
- Practice deployment
  - **Prioritization: Medium**
- Document your works & learnings

#### WEEK 6-7 – Target: 24/05/2022

- Deploy website
  - **Prioritization: High**
- Fine tuning for github repository
  - **Prioritization: Medium**
- Fine tuning for UI
  - **Prioritization: Low**
